A HERO'S PROMISE

"Glory lies in a promise fulfilled."

Anybody can make promises. But what separates a Hero's Promise from an ordinary promise is the commitment that transforms promises to reality. And this steadfastness towards promises defines Hero Realty as an organisation that is completely dedicated to its customers, employees, partners and the society.

Being a part of the renowned business house Hero Enterprise, our work ethos is guided by the strong group values of **Trust, Care and Nurture**. These values are at the core of delivering modern, elegant homes to customers on time, while making a positive impact on the environment.

Our development philosophy is based on four design pillars.

Fitness | Sustainability | Community | Creativity

These four parameters help in adding distinctive features to the homes that lead to an enriched lifestyle for you.

As a principle, we have three criteria in mind before engaging in a new venture.

First, the venture needs to be something that one of us in senior management is passionate about.

Second, it has to be in an area where we can make the maximum positive social impact. Finally, it

has to be a venture where we can move into a leadership position.

Housing in India, is both, a serious social challenge and a great economic opportunity.

While the country's population has grown exponentially, most do not have the privilege of a well-appointed home. At the same time, when housing is promoted, great multipliers are created,

since an estimated 150 plus industries are linked to this sector in some form or the other.

This socio-economic impact has strengthened our conviction to commit ourselves to the business

of building homes and community development. The Hero Homes venture is a

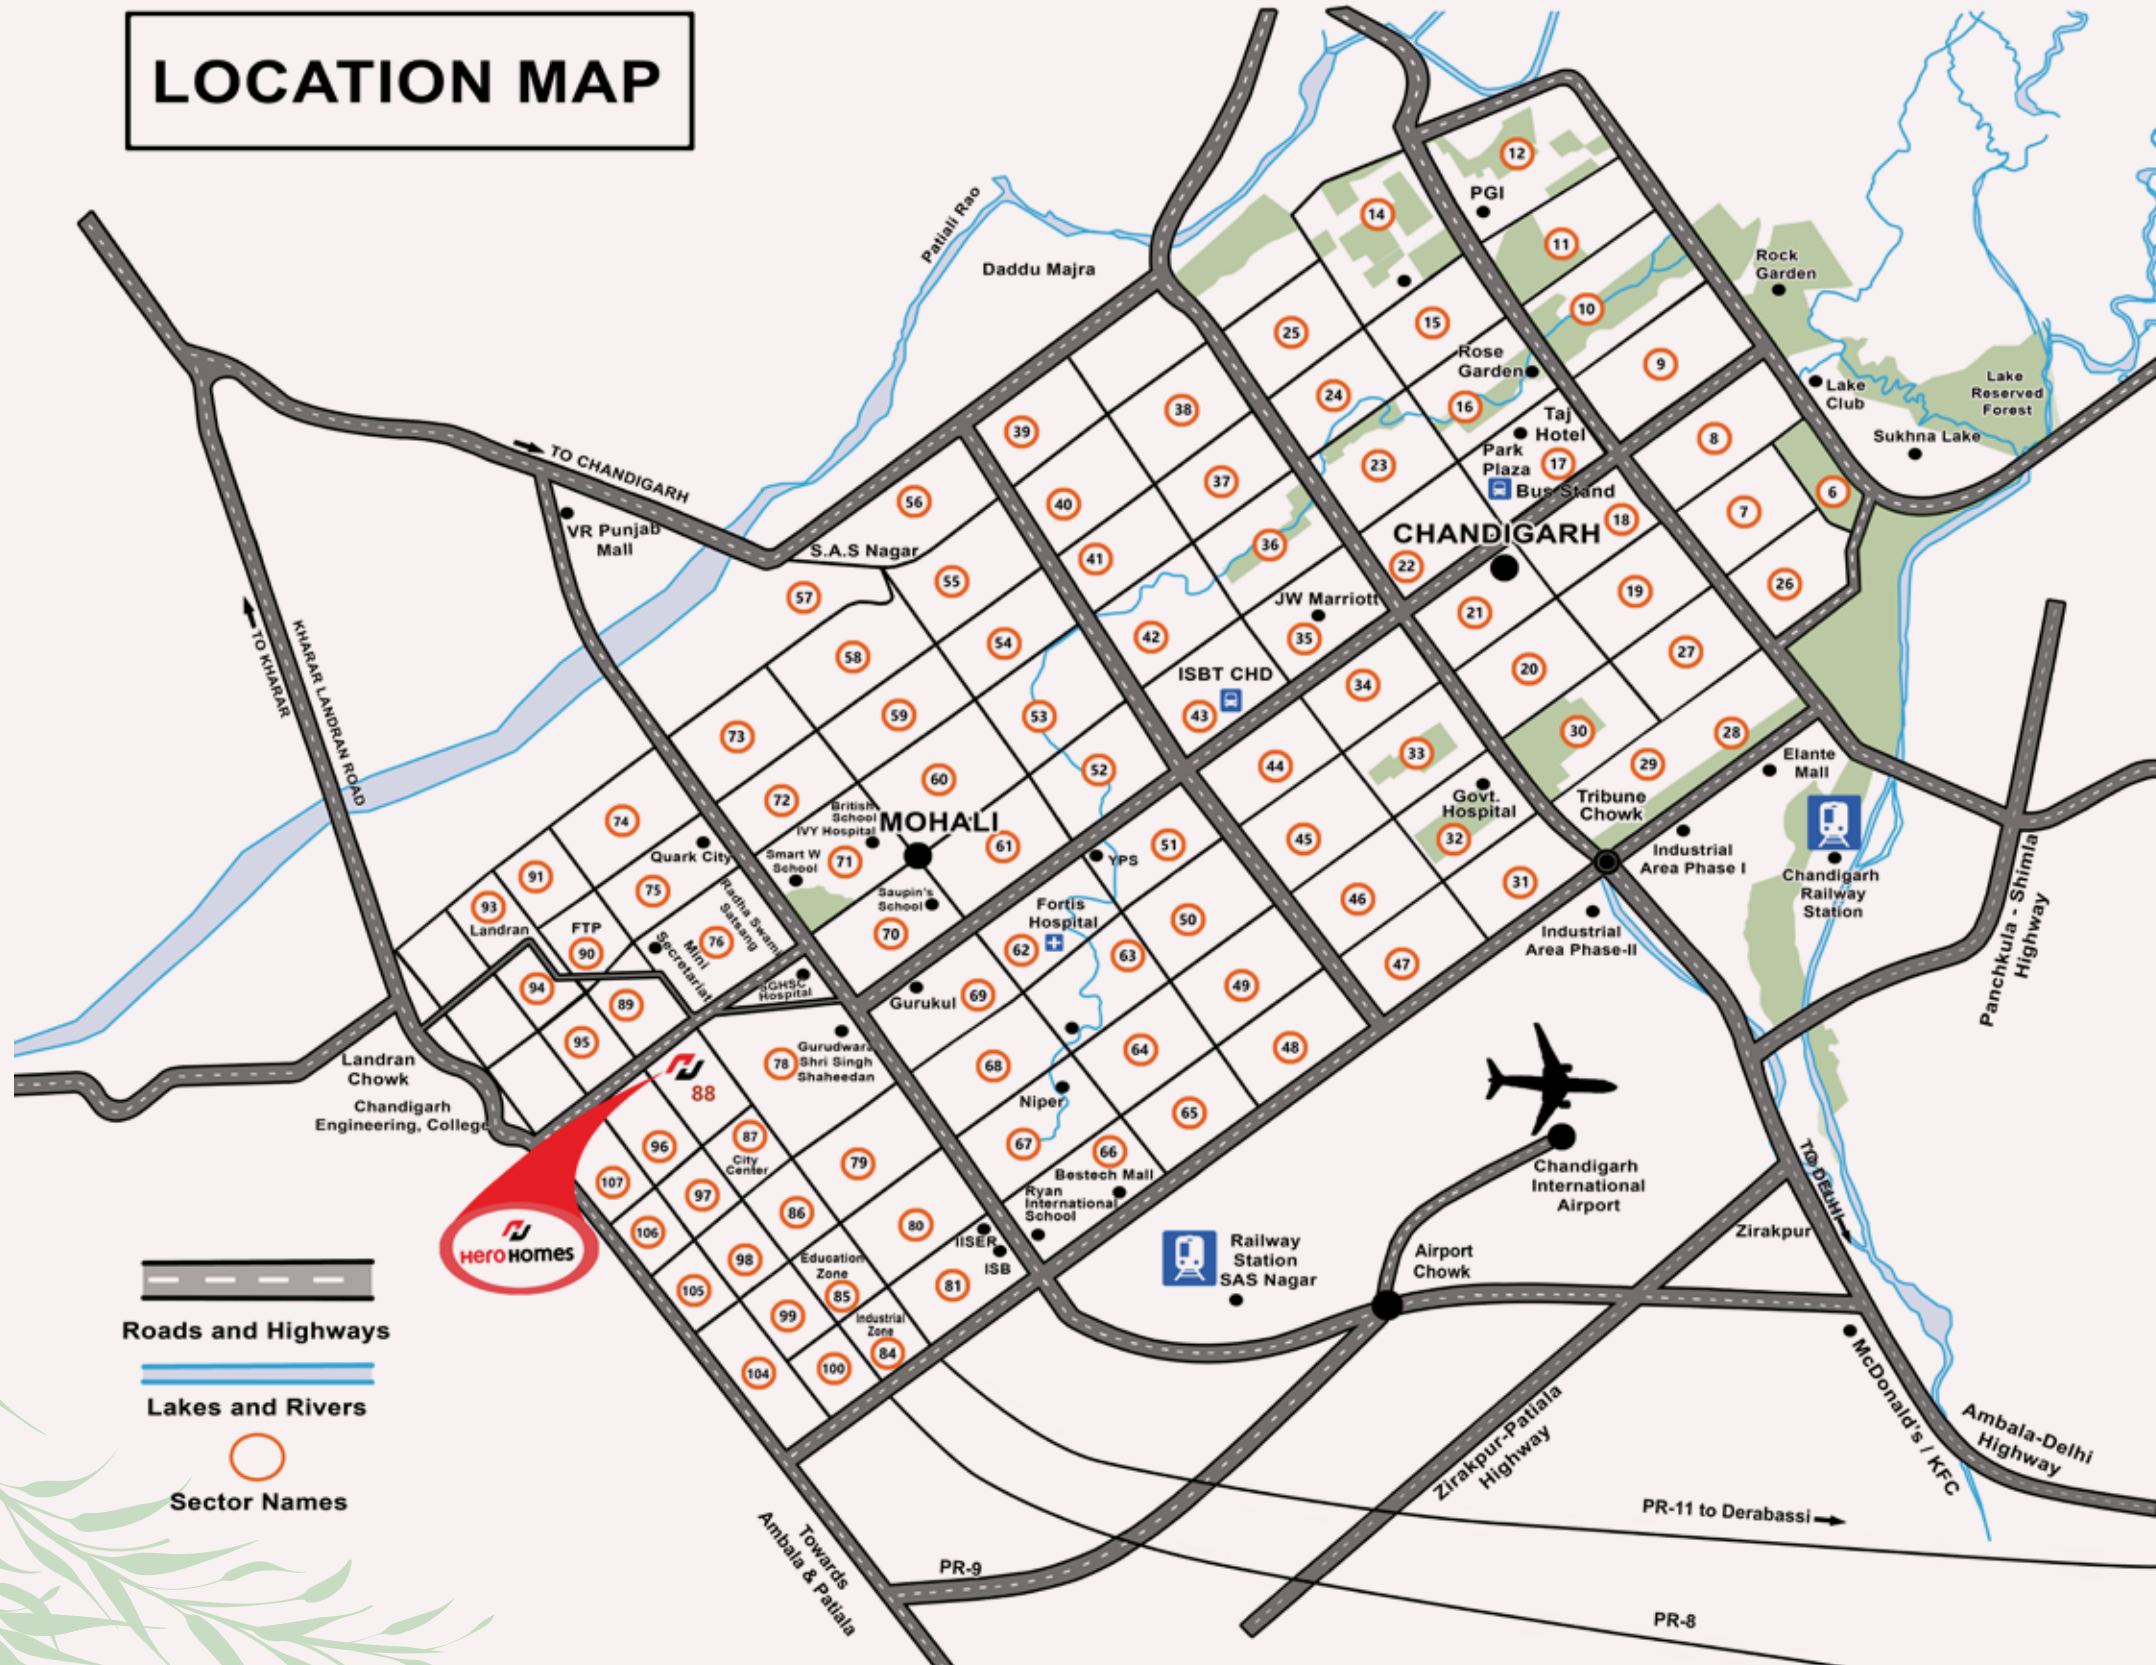

manifestation of this conviction.
